

Request form for sensor calibration

When you need a calibration for one of your pCO₂ sensors, that is paid by the OTC, please follow the instructions given in this document.

1. Send the order form (next page) to otc-support@icos-ri.eu. We will contact you with further information. Please cc otc-support@icos-ri.eu in your emails with the manufacturer.
2. The stations are responsible for shipping and customs clearance (if necessary). Send your sensor to the company.
3. If it turns out that the sensor needs extra maintenance other than just a calibration, this needs to be covered by the station. The sensor is sent back to you after calibration. The invoice for the calibration is send directly to the OTC.

Request form for sensor calibration

ICOS Station:	
PI Name:	
Institution:	
Email:	

Sensor data	
Sensor model	(Contros, Pro Oceanus,...)
Serial number	
Last calibration	
Preferred shipping date	
Latest date when you need the sensor back	
Desired pCO ₂ range in μatm	
Desired temperature range in $^{\circ}\text{C}$	
Your shipping address	
How is the sensor packed, list all additional parts
